06	A permission-controlled public record.

Annual Standing.

Annual Standing.

The recognised annual position through which one senior professional enters and participates in the UNBOUNDED Global Professional Commons.

A year-long institutional relationship.

Annual Standing is attached to one approved senior professional and creates the principal route into the Commons.

One named professional

A current position with profile, jurisdiction, institutional context and visibility permissions.

Concierge Core

Four standard assistance requests and two curated engagement cycles during the annual term.

Barcelona Assembly

One standard place for the named Standing Holder, subject to the published terms.

A complete annual operating environment.

Standing includes a foundational Trust Passport, principal delegation, up to two priority corridors, selective Annual Programme, Dashboard, Standing Record and constituent pathways.

Foundational identity layer

Current role, organisation, jurisdiction, capability context and participation history.

Delegation & corridors

One principal jurisdiction community and up to two priority business corridors.

Programme & record

Relevant gatherings, documents, contributions, Barcelona and annual institutional history.

Clear commercial terms.

Standard Annual Standing is USD 1,995. Founding Annual Standing is USD 1,495 subject to published availability. A USD 199 × 12 instalment option remains a full annual commitment.

Standard Annual Standing

One annual term for one named senior professional.

Founding Annual Standing

Available subject to the published founding cohort terms.

Instalment route

An annual commitment paid in monthly instalments, not a cancellable monthly subscription.

Standing creates access, not guaranteed outcomes.

Annual Standing does not guarantee referrals, mandates, introductions, speaking, recognition, publication, constituent membership, appointments or commercial results.

Professional suitability

Conflict, independence, client acceptance and engagement checks remain essential.

Distinct criteria

Standing does not automatically confer WLA partnership, WONE partnership, UNIONE fellowship or neutral-panel status.

Not automatic

Renewal may consider participation, profile accuracy, conduct, obligations and institutional capacity.

Your first quarter.

Your first quarter.

From activation to meaningful participation — with enough time to understand the professional, jurisdictional and institutional context properly.

Begin with a credible foundation.

The onboarding period has been intentionally expanded. UNBOUNDED will not promise an artificial volume of immediate activity.

Confirmation & access

Standing confirmation, secure access, Barcelona status and onboarding materials.

Profile foundation

Trust Passport foundation, jurisdiction, role, organisation, priorities and contribution interests.

Meaningful participation

Delegation and corridor mapping, programme orientation and a first appropriate Concierge pathway.

Quality before artificial speed.

A Concierge request begins its service clock only after sufficient information is received, scope is confirmed and the request is accepted.

Acknowledgement

Normal target for confirming receipt of a request.

Clarification

Where additional information is required after initial review.

Standard Action Note

Normal target after accepted scope confirmation; complex requests may take longer.

One operating environment for your year.

One operating environment for your year.

The private continuity layer through which a Standing Holder manages identity, requests, geography, programme, Barcelona and institutional record.

Your annual institutional operating layer.

The Dashboard is not another social network. It brings together Standing, Trust Passport, Concierge, geography, programme, Barcelona, opportunities, documents and annual record.

Status & term

Activation, renewal, payments, Barcelona place and service capacity.

Requests & Action Notes

Submission, clarification, scope, status, documents and engagement cycles.

Agenda & signatory route

Programme, declaration participation, signatory capacity, documents and post-Assembly record.

Human-supported and operationally focused.

The first version may use authenticated profiles, structured forms, secure documents, request tracking, programme registration and administrator-assisted workflows.

Permission-controlled

Public, Standing Holder, authorised institution and private visibility levels.

Meaningful history

Participation, contributions, signatories, working mandates and publications.

Progressive digital layer

Verifiable credentials, Project Rooms, intelligence, relationship mapping and constituent interoperability.

Enter during the formative institutional cycle.

Enter during the formative institutional cycle.

Founding participation creates early access to the Commons, Barcelona, delegation and corridor formation, Trust Passport foundations and selected working-group opportunities. It does not guarantee governance office, speaking, publication, recognition, signatory status or commercial outcomes.

Published scope

The page distinguishes current operation from future development.

No purchased outcomes

Fees do not buy institutional conclusions, roles or recognition.

Record & review

Important decisions, status changes and formal documents are recorded.

Published pathways into the wider ecosystem.

Published pathways into the wider ecosystem.

Each privilege identifies its provider, eligibility, scope, validity, exclusions, capacity and any additional fee. Privileges do not automatically create partnership, fellowship, panel status, appointment or commercial mandate.
